 YEAR THREE
TERM 3

ENGLISH: Language/Literature/Literacy

Students will listen to, view, read and compare a range of stories, with a focus on different versions of the same story. They will choose a story and create a spoken retell, telling it from another perspective. They will study a variety of myths and Aboriginal Dreaming stories to understand that all cultures have heroes, myths.

MATHS

Place Value: students will recognise, represent and order numbers up to 10 000.

Units of Measure: Students will use metric units of length, mass and capacity and informal units of area to measure, order and compare objects.

Multiplication and Division - Students will explore strategies to develop recall of multiplication facts of two and three.

Teacher: Miss Lizzie
(Elizabeth Keim)
have their own creation myths, that try to make sense of the world.

SCIENCE
Students will investigate how heat can be produced and transferred. They will explore factors affecting heat transference and safety practices required. Students will understand that heat is a type of energy and identify and explore sources that produce heat.

STUDY OF SOCIETY AND ENVIRONMENT
Natural features, places and symbols: Students will investigate why places and features in our local community are where they are as well as show mapping skills.

PHYSICAL EDUCATION

THE ARTS:
