6th November 2012

Re: Triennial School Review community consultation.

Dear Parent / Caregiver / Community Member,

All State Schools in Queensland are required to undertake a triennial review of school structures, policies, and procedures in order to inform decisions regarding the direction of the organisation over the next 3 or 4 years. Cloncurry State School is currently conducting such a review. All staff have been included in a team to focus on one of the six main areas of our school operations (Facilities, Curriculum, Literacy & Numeracy, Support Services, Senior Schooling, and Supportive School Environment). Student feedback has also been invited, either recently or in the near future, via the Student Council, or otherwise, in each of the areas as well.

Input from Parents, Caregivers, and Community Members is also invited during this review process. The Supportive School Environment review team will be presenting their findings next week and this is an open invitation for anyone to attend. This particular focus area has reviewed topics including behaviour management, school sport, health, artistic & cultural pursuits, and some internal student support structures. The details of the presentation are:

Date: Monday 12th November

Venue: Cloncurry State School Library

Time: 1730 hrs (for approximately 30 minutes)

Please R.S.V.P. to Kerry in the school office on 47428333 if you will be attending. I hope to see you there.

Yours sincerely,

Pete Keen
Deputy Principal
