In Unit 3 English, the students are learning about persuasive texts and the evaluative language within these texts. For their assessment, the students will write a persuasive letter regarding a school topic. In Unit 4, the students will read Charlotte’s Web and write a procedure that’s inspired by text.

For Unit 3, the students will be creating and completing number patterns. Also, they will be exploring odd and even numbers. In Unit 4, the students will be learning about using place value and number expanders to solve word problems.

Green Class will be learning about Earth’s rotation on its axis in relation to the position of the sun. Their assessment will involve a presentation explaining these processes with the assistance of a model.

For reading, the students are placed into their reading groups Monday-Thursday. These groups are categorised by their PM reading levels. Each student has a fish that they will move up a section of the Dr Seuss river each time the student moves up a PM level.

In Geography, Green Class will be learning about Australia and its neighbouring countries. We will explore these countries icons and their climates.

In this unit, students will develop the movement skills of running, jumping and throwing. They will also explore the benefits of physical activity.

Students will explore risking taking behaviours, their rights and responsibilities and decision making strategies.

Easter Monday – 17th April
ANZAC Day – 25th April
Cross Country – 28th April
Labour Day – 1st May
Cloncurry Show – 16th June

Each fortnight we are focusing on a different school rule. In our classroom when a student demonstrates the focus rule they will move up on our class chart. Their aim is to receive 3 PB’s each a day. The four rules are be responsible, be safe, be respectful and be a learner.
