Term 3 in Purple Class!

**English**

In English this term our focus will be on procedures, comprehension and informative texts.

For assessment students will need to write a procedure. They will also need to take information from a narrative text and write a short informative text.

**Maths**

There are lots of different concepts to focus on in Maths this term. These include:

- Length, area & capacity
- ½, ¼ and 1/8
- Money – using coins and notes
- Calendars
- Place value – hundreds, tens & ones

**Science**

Purple class will investigate life cycles. Students will need to identify and explain each stage of an animal’s life. We will also be growing some plants in the class and recording their progress and changes throughout the term. Throughout this unit we will look at the life cycles of frogs, chickens, butterflies and people.

**Dance**

This term students will be lucky enough to have footsteps dance come to the school. All students in Purple Class will get to spend a lesson a day learning dance moves. This will be in the final week of school this term.

**HASS**

In this unit, students identify and explore a site of historical significance in the local community and describe what the site reveals about the past and its importance today.
